Assets NOT Scanned in Stocktake Since Date

Last Modified on 31/08/2026 1:01 pm EDT

This query can be run to find all the assets that have not be scanned in 12 months or 24 months in a stocktake, so we know the missing items. You'll need to change the EntryDateTime to get the records within your specified timeframe.

You can execute this query using Excel Query Builder in RentalPoint...	

```
SELECT A1.*
FROM tblAsset01 A1
WHERE ISNULL(A1.asset_code, '') <> ''
  AND A1.ASSET_CODE NOT IN
    (SELECT DISTINCT A.asset_code
     FROM tblasset01 A
     INNER JOIN tblStockTakHistory S ON S.Product_code = A.PRODUCT_COde
     AND S.Stock_Number = A.STOCK_NUMBER
     WHERE EntryDateTime < '2016-12-31' )
```
