

Vendor List

Last Modified on 07/20/2020 3:39 pm EDT

This query will create a list of active vendors

```
SELECT VendorContact,
       VendorName AS Company,
       Vadr1 AS [Address 1],
       Vadr2 AS [Address 2],
       Vadr3 AS [City/Town],
       Vpostcode AS [Postal Code],
       Country,
       State AS [State/Province]
FROM dbo.tblVendor
WHERE (Disabled <> 'true')

/*****

/* This Query will show more detail as it includes phone numbers and email address */
SELECT v.VendorContact,
       v.VendorName AS Company,
       v.Vadr1 AS [Address 1],
       v.Vadr2 AS [Address 2],
       v.Vadr3 AS [City/Town],
       v.Vpostcode AS [Postal Code],
       v.Country,
       v.State AS [State/Province],
       Vemail AS [Email],
       v.CellAreaCode AS [Cell Area Code],
       v.CellDigits [Cell],
       p.AreaCode AS [Phone1 Area Code],
       p.Digits AS [Phone1],
       p2.AreaCode AS [Phone2 Area Code],
       p2.Digits AS [Phone2]
FROM tblvendor v
LEFT OUTER JOIN tblphones p ON v.Phone1ID = p.id
LEFT OUTER JOIN tblphones P2 ON v.Phone2ID = P2.id WHERE (Disabled <> 'true')

/*****

/* Option 3, Basic Information */
SELECT v.VendorName AS Company,
       Vemail AS [Email],
       v.CellAreaCode AS [Cell Area Code],
       v.CellDigits [Cell],
       p.AreaCode AS [Phone1 Area Code],
       p.Digits AS [Phone1],
       p2.AreaCode AS [Phone2 Area Code],
       p2.Digits AS [Phone2]
FROM tblvendor v
LEFT OUTER JOIN tblphones p ON v.Phone1ID = p.id
LEFT OUTER JOIN tblphones P2 ON v.Phone2ID = P2.id WHERE (Disabled <> 'true')
```
