

Discrepancy Items

Last Modified on 07/26/2018 2:17 pm EDT

The Items Not Returned Discrepancy report details all assets and the bookings that they are assigned to that have been delivered but have not yet been returned. If your company is running multi locations this report is location specific.

This report is only available on systems with asset tracking enabled (Barcode Tracking Parameter #2). If barcode tracking is disabled, this report will not be available to you.

The discrepancy report can be found off the REPORTS menu

The screenshot shows the RentalPoint 11.1.5.4 software interface. The 'Reports' menu is open, and the 'Discrepancy Report [Items Not Returned]' option is highlighted. The interface includes a navigation pane on the left with icons for Bookings, Shortage, and Customer, and a main menu with options like Actions, Reports, Crystal Reports, Assets, Setup, Others, and Help. A table is visible at the bottom of the screenshot, showing data for 'association Inc' on 'Fri' at '9/19/2014' with a value of '08'.

				Tit
				08
				08
association Inc	Fri	9/19/2014		08
association Inc	Fri	9/19/2014		08

Discrepancy Report for Individual Bookings can be found within the return window for the booking.
