

Products not used on Bookings

Last Modified on 02/07/2019 9:38 am EST

Execute these queries using Excel Query
Builder

```
/* Products not used on any booking*/
select m.product_code as [Inventory Code],
       m.descriptionV6 as [Description],
       isnull(i.product_code_v42,"") as [Item Code],
       isnull(i.booking_no_v32,"") as [Last Booking #],
       isnull(i.Comment_desc_v42,"") as [Description],
       isnull(i.FirstDate,"") as [Not used on booking since]
from   tblinvmas m
LEFT JOIN vwItemAndHist I on I.product_code_v42 = m.product_code
Where I.product_code_v42 IS NULL
```

```
/* Products not placed on any booking in X Months - uses reservation date of gear*/
```

```
DECLARE @Months AS INT
SET @Months = 12
```

```
SELECT m.product_code AS [Inventory Code],
       m.descriptionv6 AS [Description]
FROM   tblinvmas m
WHERE  m.product_code NOT IN (SELECT DISTINCT product_code FROM
vwitemandhist
                                WHERE m.product_code = product_code_v42
                                AND   Datediff(month, firstdate, Getdate()) <=
@Months)
ORDER BY m.product_code
```
