

# Remove Lock From Parameter File

Last Modified on 03/06/2022 2:29 pm EDT

Parameter Setup is locked for updating once accessed by any user, for the duration of the edit. Sometimes, if a user gets disconnected or doesn't log out correctly, the lock can remain in place even when Parameter Setup is no longer in use.

Should you receive the message

AND you are confident that no user is currently in Parameter Setup, you can remove the lock as follows
